LAP WELDED

Tubing & Casing **Both** Plain and Galvanized, for Oil and Salt Wells. American Charcoal iron Boiler Tubes, Lap Welded Tubing for Steam and Water.

SOLE MANUFACTURERS OF

W. C. ALLISON'S PATENT JOINT

Oil Well Tubing This Superior Tabing is furnished with heavy sockets, and is out with a vanishing screw thread, so that when acrewed up it has a bearing the whole length of the joint; and the absence of a deep thread on the tube at the and of the socket obviates the liability to break at that point from the vibration caused by the astists of the pump.

The length and socket is stamped with our trade manh, and is carefully tested before shapement with a hydraulic presence of 1,800 pounds to the square land.

to a more carnest discharge of their civil duties. Fraud at the belo-box and ored the offices of public trust which they have held has been in some measure due to our efforts in that behalf.

to our efforts in that behalf.

Resolved, That while we fully realize and appreciate the magnitude of the public disaster which the thefte and spoilstions of these men have brought upon this city, we do not regard the whole cure for these evils to be in their expulsion from office and in the election of better candidates. The chief danger to the state lies in the low tone of public morality which pervades all circles of political action throughout this land. Its salvation the lessing of God under this sentiment, and unless fanned by irritation to fanational magning wormed city would be ruled the salvation the low, to do fresponsibilities too burden. The which the course for the community was at last aroneed to a closely could see the end of all near at the blessing of God under this sentiment, and, unless fanned by irritation to fanathic long-misgoverned city would be ruled. the blessing of too under the salvation at the found in the establishment of a this long-misgoverned city would be ruled in honor and justice. [Cheers] higher and purer standard of public mor-als. We denounce dishonesty in the dis-obarge of the datics of public office as a orime equal to treason against our counry, and its perpetrators are utterly un-

Roselved, That we shall be in the fu-ture as we have been in the past, the unmpromising enemies of fraud and coruption everywhere, and we mean to verthrow toem. We commend to the vatchful vigilance of this association the egislation applicable to this city in the pproaching season. We demand the commission and election of a citizen of high standing and unimpeachable charac-ter to the office of Chief Executive of this nd competent men to the heads of all departments. We demand immediate and full publicity in all matters pertaining to the city finances, whether relating to the re-ceipts or expenditures of public moneys. We demand the abolition of all sinecures and the suppression of all plurality of offices. One office is sufficient for one man. We demand a prudent and economical adthe signal and prompt collection of all the signal and prompt contention of all times, whether for real or personal property, and the immediate cessation of all cats of favoritism, by which the friends and supporters of men in power and enphasis, by fraudulent undervaluation of their estate, to escape their just share of the public burdens. To all these and kin-

SPEECH OF MR EVARTS. Mr. President-This is a meeting of

congratulation, and rightly so. It it is permitted to a city to be joyful through all its streets and all its homes whou it all its streets and all its homes whom it bas escaped is pestilence, then we may be permitted to be joyful in the city of New York since the last election. [Applause] If it is to be permitted to a city to rejoice If it is to be permitted to a city to rejoice on its deliverance from famine when that terror has passed away, and it is again supplied with wholesome food, we have a right to be joyful since the last election. And it it is permitted to a city to illuminate itself, and fill its streets with shouts when war has yielded to the proclamation of passes, then ye in this site of New Land 19 and 19 ecring.

of peace, then we in this city of New York have a right to be joyful rines the last election. We have escaped a pesti-lence that was destroying all the manhood of our people. We are saved from the famine of good purposes and good thoughts and hopes of good possibilities for the future that would have made this city uninhabitable throughout all time. We are saved from that last resort, which

we as a saved from that last rearry, which, sure as there is a just God in heaven, would have come—that would have given us the victory which our honest and peaceful afforts have gained. [Appinuse.] Whon, therefore, Mr. freshent, this Association asked me to come to-night to take part in this congratulation, and all pleases and a pleasure in being present to present, as one of the citizens of New York, ny thanks to this Association for the manity, practical, valuable, successful efforts that they made on American interest and for the freedom of the citizens of New York. Applicace.] But wo are not, after all, whonly met for congratulation, unless we find in these congratulations, unless we find in these congratulations, and impiration to new energies and to now efforts. Nor do we care much for the success of the past, unless they have given no an experience that its to give us a now wefforts. Nor do we care much for the success of the past, unless they have given as an every more than twenty to the success of the past, unless they have given as an every more than the success of the past, unless they have given as an every more than twenty four hours, after all, whonly met for congratulation, ander work and for the feature. And such I understand to be the attitude of these young mon—combined, not to promote the success of the past, unless they have given been the time of the success of all politics, of all parties, and all candidates work by of the name. What is are the avowed objects of this Association? They are to see that homest and candidates worthy of the name what is a strength of the success of the past is the first and to discharge thoroughly the contrast of the pastic time?

Here is an illustration of the mean present the pastic the compared to the pastic the compared to the pastic the compared to the pastic that the pastic the compared to the pastic the compared to the pastic that the pastic the compared to the pastic that the pastic that the pastic the pastic that the pastic that the pastic that the p

violable. They are to see that honest and capable men are promoted in the public service. Well, it was high time that somebody gave attention to these subjects. I wenture to say that your experience of the course of politics in this city for the last ten years has shown you that nobody cared for any of these subjects, but all the satisfactor, to intimidate, to deter in the discharge of their duties all citizens, was the charge of their duties all citizens, was the coses of the infamous Ring government, which lately raied our city. [Applause.] To see to it that the ballot should not by any possibility be pure, and that it should be constantly violated, was the scheme and the purpose of all the politics of this city for the last ten years. To see to it that no capable and no honest candidate of any party was permitted in this city was the chief and ancessful result of the addition.

lican victory. A Mormon Audience.

as determining the queetion whether we were a great free people worthy of the free institutions which we enjoy, and on pable of conducting them or not. It is now thirty-one years since I first attained the right to vote and exercised it then at the city of New York, and at every election since. No discouragement, no fear that my vete would not be recorded for the candidate I desired to see elected, induced me to abstain from voting. Hundreds of thousands of intelligent citizens have been driven from the poll by the moral conviction that they were overwhelmed by the tyrannical usurpation of the ballot. Instead of resisting, instead of resolving measures to defeat these calamitous intends upon our institutions, every year roads upon our institutions, every year the same baldish scouce the peculiarities new and large bodies abstained from par of Guy Fawkes and Judge Jeffreys. Simnew and large bodies abetained from pariticipating in politice, and at lest three usurpers of our liberties had become entirely persof our liberties had become entirely present to the command to increase and secure in power, and entirely contempts of this people over whom they presided. They were secure in the cohesion of plunder, and the thick-headed, negligent, poor-souled policy of ours. The speaker narrated the fable of the release of the very present of the poor souled policy of ours. The speaker large of the release of the very present of the poor souled policy of ours. The speaker large of the release of the very present which he compared with

minded his own business, that he was

man unfit for any business at all. The election day is the greatest day of the sa mutter arose over that great congregation, Brigham himself being present, etc. peaceful unity of the European family I saw in the court a Jew, lineal descend ticism again. The weary faces, long and hollow, told of responsibilities too burden-some and of bodies overtaxed. The bright lights which shine in the face of him who

Earth celery in dry weather; take up and store before severe frost. Gather fruit late, and keep in a cool, rost-proof fruit house or cellar. Apple trees, etc., should be mulched and pruned, and prepared for their long winter sleep.

FATTENING MILCH COWS.

The People, of Concord, N. H., contains the following in relation to feeding cowe for milk and beer at the same time: In a recent conversation with an intelligent farmer, we learned that his practice of amination, it was the intention of the prosecuting counsel to make him with nausging bis cows, especially the farrowner, in winter, was to feed for beef while they were giving milk. In this way he thought he got pay in milk for all it cost to fatten the azimals, giving him their increased value for profit. For instens, he takes a farrow cow in the fall or early winter, and commences feeding her the same as he would if she was intended only for beef. This he keeps up through the winter, and she not only puts on fat, but gives double that could be obtained on ordinary keeping. Not only does she gives a good mess, but it is rich. The milk is onsidered fully (qual in value to the cost of kaeping the cow. Now mark the result. Instead of her being thin and of a very small selling value in the spring, she is roady for the butcher at the very time

of the year when beef generally brings the highest prices. It occurred to us that this was worth ingly done. Is not the practice of this man a good one to adopt and follow? It certainly seems to. As a great many farmers will be feeding more or less grain the coming winter, would it not be a good

The Reform Victory.

A mass meeting of Young Men's Association of Municipal Reform was held at Steinway Hall, New York, on Saturday ovening last. We give below three of the most important resolutions, and the eloquent speech of Hon. William M. Evarts.

THE RESOLUTIONS.

Resolved, That we point with pride and satisfaction to the part this association has taken in the recent election. The attention of all men has been aroused to a more earnest discharge of their civil duties. Frand at the 'bsl'o'-box and references and great coansel fees, its powlosse and spreading life of polygamy, proto a more earnest discharge of their civil duties. Fraud at the 'bsl'ot-box and cheating in the count of votes have been in a great degree suppressed, and we believe that the partial overthrow of the men who for so long have robbed the public transury, have defrauded and dishonored the offices of public trust which they have held has been in some measure due

Valuable Invention

For Oil Wells.

CATES' PATENT

BACK SUCTION PREVENTIVE Which entirely prevents the in-

gress of nir into oil wells

while the tubing is being drawn.

It is a well-known fact to oil well operators that upon wells where gas pumps are used, it is necessary to preserve us nearly a per set vacuum as possible, and that re arrived to be let into the well at any time a hen it can possibly be avoided, consequently whenever the tuning as drawn from a well it is the cause of great injury to it, as the stuffing box being then necessarily opened, the six immediately rusi es back between the tuning and casing into the owell, go ag into the oil rock and gas veins, and consequently causing the oil and casing into the well, so ng into the oll rock and gas veins, and consequently causing the olf and gre to rush back to a great distance. It almost always takes several days after pum ing in resumed for a well to be brought back to its forms. condition, and oftentimes it takes sever I weeks, and quite frequently wells have been almost completely runned by the nir temp thus let in while drawing tubing.

The Back Succion Preventive is attached to the syndige buy, and works in such a way that it completely sha a up the space be ween the a util glox and tabing so effectually that not a paticle of six can get through at any time while the tub

No. 1 -- Represents

Joint Compiete, No. 2--A SENECA FALLS, N.Y., Aug. 31, 1921.
To Whom it May Concern;
Not so is hereby given that we have the right to make and vend the Gas Pumps herebofore manufactured and a id by us, and we hold ourselves bound and re possible to protect all our vendess in the new of the rows. longitudinal sectional view of a full Joint, showing the position of the wood in the COWING & CO. socket when wedged, a gisnce st whi h must convince the most skeptical of Patented Aug. 8,'71 the superiority of this Joint over any other No. 3--A view of the end of the Rod, when turned ready for the socket to be driven on, with the slat for the wedge and the wedge about being entered. No. 4--Represents the end of the wood, and shows the proper way to

> saw the slot (across the grain) into which the wedge is to be driven. The above description and accompanying cuts will enab'e any skilled person to make connection at the wells in a mu h shorter time than can be done with any other Rod all the tools requi ed being a small fine saw, one of our hollow augurs and a few of our wedg s. The weiges can be procured at any hard-
